

BOZPO®

PREVENTIVE AND PROTECTIVE SERVICES

Take control of workplace shortcomings using the module **PERFORMANCE REGISTRATION**

The Performance records module is part of the innovative Eboz software application. It provides the employer with an overview of the workplaces in the area of occupational safety and fire protection.

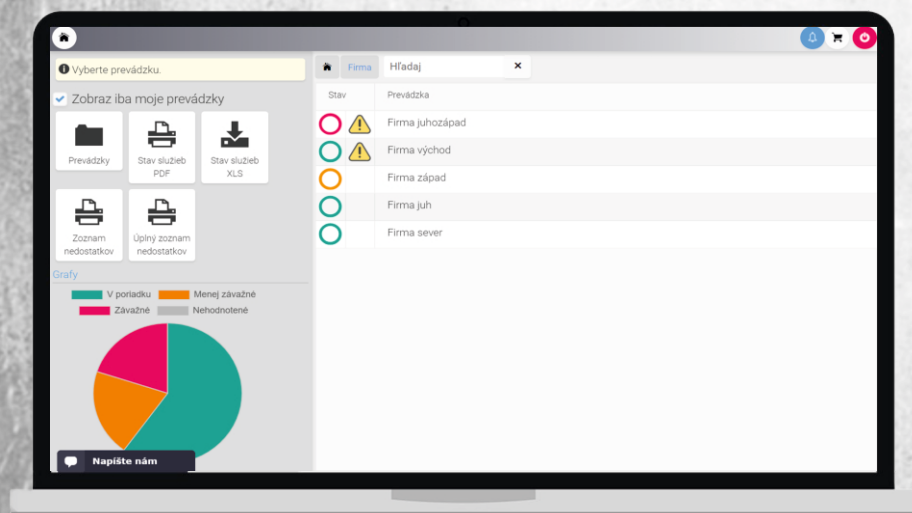

Awareness of the shortcomings in the workplaces makes it possible to take remedial measures to eliminate them, thus preventing the occurrence of work injuries, damage events and ensuring the smooth running of any inspection by state authorities.

Use of the app for managers, experts and technicians ensures:

- to fulfill the employer's legislative obligation to detect shortcomings in the workplace,
- overview of the number of inspections carried out at the workplace,
- an overview of violated rules,
- clear printouts,
- identifying shortcomings involving a set of employer's legislative obligations in the form of training validity, validity of technical equipment controls, safe workplace status and others.

The Performance records module allows:

- Quick online preview of workplace shortcomings
- Comparison of the number of shortcomings between individual enterprises
- Replace paper archiving by electronization
- Color preview showing the severity of the deficiency
- Entering performances directly online at the workplace
- Inserting photographic documentation to individual deficiencies
- Signing the download protocol directly in the application
- Mobile device support - smartphone, tablet!
